

# Woods Wolverines Cultural Hero Poster

## Objective:

Select a Cultural Hero to research. This can be a famous person, or it can be an important member of your family who represents a race, religion, and/or disability. Highlight the impact they have had on you and/or your culture.

Reference Sources: You can research information about a cultural hero from books, magazines, online or through your own family history. You cannot copy their words; you need to use your own words. Each poster should have several topics.

## What you will do:

Type information on the computer and print it. Have your parent edit your paper. Once edited, print, and attach to poster (provided by Mr. Bernal). Please use pictures/visuals.

## Topics on Display:

- Name and description of the person you selected
- Why did you select this person?
- Which culture(s) do they represent and how did it impact their life?
- Cultural story, legend, and/or accomplishment associated with the hero
- History of the person you selected-
  - Birthplace
  - Early Childhood
  - Education
  - Adult life
- Important quote from this person. (Describe why you selected that quote.)
- Photos of the person
- Values/traditions that have been passed down from your cultural hero to you
- Lesson others have learned or can learn from this person
